

FAASTeam presents:

Controlled Flight into Terrain

Jurg Grossenbacher, FFAST Program Manager from the Milwaukee FSDO will brief the pilots on the recent spike in accidents to include Controlled Flight into Terrain. We will discuss why bad things happen to good pilots and what you can do to stay safe. We will talk about the causal factors:

1. Lack of Proficiency
2. Standard Operating Procedures

We will discuss how you can stay safe this year and still enjoy flying to the fullest.

Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.

Directions: Follow signs to Wausau Downtown Airport, Wausau, WI.

A message from the National FFASTeam Manager
